Experience

Institute of Exercise Professionals

ireplearning.com.ng

Next.js, TypeScript, MongoDB.

- Built an e-commerce web app from the ground up for sales of fitness courses tailored towards aspiring and experienced fitness instructors.
- Implemented a system where staff can create, edit and delete courses using a WYSIWYG editor.
- Implemented rate-limiting and google recaptcha to reduce chances of DDoS attacks.
- Implemented a payment gateway with paystack.
- Created an interface for staff and admin to monitor and approve sales.

IREP Corporate

Next.js, TypeScript, MongoDB.

- This is the corporate arm of The Institute of Exercise Professionals, where the company trained the staff of corporate bodies.
- The app was able to take all the data of each staff of different companies and calculate some health and fitness results in real time. This used to take weeks to accomplish. This improved sales by over 500%, as IREP was able to attend to more companies.
- PDF results were auto-generated. This used to be sent manually.

Michael Akinola, The Data Analyst

michaelakinola.com

Node.js, Next.js, TypeScript, MongoDB.

- This web app was made to show the projects made by Michael Akinola, a data scientist based in Indiana, USA.
- He also writes blogs about Data Analysis, Machine learning and Python on this web app.
- Like and comment systems were also implemented.

Skills

FRONT END DEVELOPMENT

HTML, CSS

JavaScript, Bootstrap

CSS Modules, Styled Components

React.js, Next.js

Context API, Redux Toolkit

SWR, React Query

BACK END DEVELOPMENT

Node.js, Express

EJS, REST

MongoDB, MySQL

Certifications

HTML and CSS Indepth, META

September, 2022.

Intro To Front End Development, META

September, 2022.

Programming With JavaScript, META

September, 2022.

Version Control, META

September, 2022.

React Basics, META

September, 2022.
